unsung heroes

“I want to acknowledge the incredible work happening during this crisis. They’re placing their lives on the line as ‘first responders,’ which was asked of them by the federal government under the United States Department of Agriculture. I want my staff to feel appreciated for the incredible work they are doing. They are unsung heroes.”

Dominic Machi
Director of Food and Nutrition Services
Mt. Diablo Unified School District
planning for sy 20-21
reopening schools

national

- centers for disease control (CDC) guidance is forthcoming
- **expect:** decision trees, general advice for states and locals

california

- schools potentially start the year earlier in july; no official decision
- **expect:** local decision-making; radical changes to the school day

but first…. testing!
case study: san diego county school districts

SDCOE pandemic plan includes:

- public health assumptions
- school operations with social distancing
- attendance
- funding
- social and emotional health
- community engagement
- school nutrition programs
**case study:** san diego county SNPs

A. plan for multiple scenarios
   a. **some** districts open, continue non-congregate meals
   b. **more** districts open, reduce non-congregate sites based on need
   c. **all** districts open w/ social distancing, close non-congregate sites; “the new normal”
   d. **all** districts open, no COVID-19 restrictions; “not foreseeable”
   e. **close** schools (again), COVID-19 restrictions, re-open non-congregate meal sites

"Those who have [multiple] plans will be best prepared"
● AND, SNA, CSPI + 35 more organizations signed on!

● $2.6 billion requested for school nutrition deficits March-June 2020

Washington, D.C. 20510

Dear Chairmen Bishop and Hoeven and Ranking Members Fortenberry and Merkley:

Thank you for your diligent work on the COVID-19 relief packages. We appreciate the opportunity to provide a recommendation for the fourth package and thank you in advance for your consideration of the unique situation of school nutrition programs.

As the nation grapples with the impact of COVID-19 disruptions, school nutrition professionals are working on the frontlines to combat rising levels of food insecurity in their communities. School meal programs chose to keep workers employed, deliver meals to students with no additional reimbursement, and impose staff to the coronavirus with little to no funding for proper personal protective equipment. Many maintained fixed expenses such as salaries while taking on unanticipated expenses such as hazard pay and transportation.

School nutrition programs rely on reimbursement from meal service to pay for expenses. Last year between the months of March and June, school nutrition programs served more than 2.5 billion meals and snacks, receiving over $5 billion in reimbursement. Now according to early reports, programs are serving only a fraction of those meals; this unanticipated loss of revenue has forced programs to tap into fund balances and draw upon lines of credit to sustain their operations.

Looking to recovery, it is imperative to support these programs while protecting jobs and limited education resources. Funding must be provided to make programs financially solvent and to maintain the integrity of essential food security programs as the recovery process begins, with many more children relying on school meal programs.

We urge Congress to provide $2.6 billion to mitigate a portion of the estimated, significant financial loss that school nutrition programs have and will continue to experience. We appreciate your consideration of this request.
pandemic ebt
p-ebt

- up to $365 per child
- automatically sent to children on DC list
- other families can apply online starting mid-May

policy updates
**Policy Updates**

**Waiver #14**
Area Eligibility

- Closed enrolled sites can use area eligibility data in lieu of apps
- Expires September 30th

**Waiver #17**
Meal Service Times

- Meals may be served at any time

**Waiver #19**
FSMC Duration in the NSLP + SFSP

- Contracts that may expire by June 30 are extended through SY 20-21

**Waiver #20**
CACFP Annual Review Requirements

- All monitoring requirements waived
- States must elect to use it
leadership corner
“Allow yourself to feel the frustration for a few hours or a few days. But then ask yourself: What can I learn from it? What is the next step that I can be working on? Get resilient at handling the frustration that comes with uncertainty.”

Ben Feringa
2016 Nobel Prize in Chemistry Winner
uncertainty capability

● our ability to deal with the unknown is largely **learned**
● “framing” = how we perceive our options
  ○ **learning** - what can i learn from this challenge?
  ○ **game** - frustration is all part of the game
  ○ **gratitude** - recognize all that you already have
  ○ **randomness** - “what happens to me isn’t always my doing”

**Source:** “You’re Not Powerless in the Face of Uncertainty”, Harvard Business Review
